16. The Committee thanked the Working Parties that have contributed to the development of the draft ITC strategy.
The ITC and its subsidiary bodies will strengthen their activities related to the United Nations legal instruments on road safety under the purview of the ITC:
(a) to support contracting parties in developing, improving and sustaining their national road safety systems;
(b) to further promote the accession and effective implementation of the United Nations legal instruments;
(c) to support the efforts of the United Nations Secretary General’s Special Envoy for Road Safety in promoting global accession to the United Nations legal instruments; and
(d) to play an effective role as the international regulatory support provided in the United Nations Road Safety Trust Fund Global Framework Plan of Action for Road Safety.
124. Noting that starting in 2020, the annual programme of work of the Committee would replace the equivalent document with biennial coverage, the Committee requested the secretariat to discontinue the preparation of programmatic documents with a biennial coverage previously adopted by the Committee, including on evaluation and monitoring, since they will no longer be relevant for the new programmatic cycle.
Thank you!
