

In EU15, rail financing is also lacking, due to poor level of rail infrastructure investment compared to road...

The Voice of European Railways

In EU15, between 1970 and 2008 road traffic almost tripled, rail traffic increased slightly

Rail track VS Motorway length in EU15 since 1970

In 35 years
MOTORWAY length
INCREASED 3.5 times !

In 35 years,
RAILTRACK length
DECREASED by 14% !

Similar growth levels
can be reached by rail
with similar levels of
investments as in road
