*(28th GRSP, 27 Nov.- 1 Dec. 2000
agenda item 2.1)*

ISOFIX ANCHORAGES

REVISED PROPOSAL FOR DRAFT 06 SERIES OF AMENDMENTS TO ECE REGULATION N° 14

OICA proposed amendments to informal doc. 6
to GRSP-28, transmitted by France

Add an item 5.2.3 to read:

5.2.3 ISOFIX anchorages shall be permanently in position or storable. In case of storable anchorages, the requirements relating to ISOFIX anchorages shall be fulfilled in the deployed position.

Justification:

The ISO Standard 13216-1 (Road Vehicles - Anchorages in vehicles and attachments to anchorages for child restraint systems - Part 1: seat bight anchorages and attachments) contains the possibility of storable ISOFIX anchorages.

Storable lower anchorages (which fulfil all requirements of rigid anchorages in their deployed position have the advantage that they can be put in a non-visible parking position). This obviously would improve comfort and safety for adult occupants, without any negative consequences.
