

SEETO Regional Road Safety Activities

Conference on Improving Road Traffic Safety in South-Eastern Europe
25-26 June 2009, Halkida, Greece

Mr. Nenad Nikolic, Transport Planning Manager

Content

- The Core Regional Transport Network
- South East Europe Transport Observatory
- SEETO and Road Safety
- Road Safety Working Group
- RW/RSA Project
- Is there a room for regional cooperation?

The Core Regional Transport Network

- Established by Memorandum of Understanding on the development of the South East Europe Core Regional Transport Network (Luxembourg – 11/06/2004);
- 7 Regional Participants and European Commission;

The Core Road Network

South East Europe Transport Observatory

- Support the implementation of the MoU which promotes development of the Core Network;
- Collect data on the Core Network and maintain an information system;
- Prepare a 5 year rolling Multi-Annual Work Plan for the development of the Core Network and for the implementation of projects and priorities on the Core Regional Transport Network;
- Provide assistance for development of regional soft measures and strengthening regional planning capacity in transport.

Multi Annual Plan

- Introduction
- Description of the Core Network
- Assessment of the Core Network performance
- Projects on the Core Network
- Transport policy and soft measures
- Vision MAP 2010-14

SEETO and Road Safety

- Data collection and presentation in MAP;
- Road Safety Working Group – a platform for regional cooperation;
- RSA Project;
- Raise of awareness among decision makers;
- Seminars, workshops, ...

Road Safety Working Group

Established in Tirana - January 29th, 2009.

The WG will deal with the administrative and regulatory procedures necessary to foster the cooperation in road safety field in SEETO region, promote road safety best practice and increase awareness among decision makers and the Steering Committee about road safety situation in South East Europe.

Road Safety Working Group Goals

- To promote the implementation of the EU road safety Acquis in the SEETO region;
- Collection and analysis of the road accident statistics, laws and regulations and best practice in SEE region;
- Cooperation with the RSA Project and implementation of RSA and RSI in SEETO Participants;
- Recommend procedures and measures to improve road safety in SEE region; and
- Cooperation with the MoT and Road Directorates.

RW/RSA Project

Started: June 2008;

Duration: 16 months;

Aim: To continue to pursue joint efforts for fostering a harmonized reform and integration process in the transport sector across the South East Europe Region and to support the improvement in the efficiency of the SEE Core Regional Transport Network.

RSA Component Project Goals

- Analyze current RS situation;
- Outline Regional Road Safety Strategy;
- Prepare legal framework for RSA/RSI implementation;
- Prepare RSA Manual;
- Prepare RSI Manual;
- Conduct pilot RSA/RSI projects in each Participant;
- Prepare Regional Road Safety Agreement and Action Plan for implementation.

Is there a room for regional cooperation?

- Road safety situation is worrying;
- Problems in road safety management system are almost the same;
- EU accession process is ongoing;
- Existing cooperation with national and regional institutions;
- Promotion through Multi Annual Plan 2010-14 and projects, workshops, seminars;

YES !!!
and what do
you think??

Thank you for your attention !
